

AvMap Announces New Partnership with Seattle Avionics Software™ To Enhance Its Aviation Products

LAKELAND, FL. Sun 'n Fun, March 29, 2011 – AvMap, a world leader in Satellite Navigation Systems, today announced its partnership with Seattle Avionics to provide Their geo-referenced ChartData™ to the new AvMap EKP V navigation system.

The Seattle Avionics' ChartData dramatically enhances a pilot's situational awareness by the addition of more than 32,000 geo-referenced approach charts and airport diagrams covering all 50 US states and nearly 40 European countries. Each EKP V will come pre-loaded with a full set of either US or European ChartData. Annual ChartData subscriptions are available from Seattle Avionics. The EKP V also includes Jeppesen NavData™ for optimal data coverage

About AvMap

AvMap was established in Italy in 1994 within the C-MAP group, the world leader in electronic chart technology. AvMap made its debut in the aeronautical market with the EKP (electronic kneepad), one of the most successful flight navigation systems sold worldwide. AvMap transferred its electronic cartography expertise from the aeronautical to the terrestrial sector, becoming a leader in satellite navigation solutions and fleet tracking systems. Users include the armed forces, police, fire brigades and emergency services. In 1994, AvMap pioneered the sector of GPS portable solutions dedicated to car navigation, launching the 'Desert Cruiser' followed by 'Road Cruiser', 'Geosat GPS', 'Geosat evolution', 'Geosat2', the 'Geosat 4 series', 'Geosat 5 series' and the Geosat 6 series. In 2007 the AvMap's Automotive B2B unit develops new super smart semi-integrated solutions which satisfy the high quality standards of the automotive industry. AvMap's partners include PSA Group (Peugeot and Citroen), Toyota, Mitsubishi Motor Company Brazil and many others. For additional information on AvMap's solutions, please visit: www.avmap.it.

About Seattle Avionics

Founded in 2002, Seattle Avionics develops cutting-edge PC aviation software, ChartData™ aviation data, and the popular SkyPad² complete EFB solution. The company's Voyager Flight Software System is a consistent winner of Aviation Consumer's award for Best Flight Planner. Seattle Avionics provides state-of-the-art US and European aviation ChartData to many major aviation companies including Aspen Avionics, Honeywell (Bendix/King), and all the leading iPad applications. The company is working on a range of aviation software and data products designed to make general aviation flying easier, safer, more fun, and more affordable.
